# WANTED: USED MERCEDES-BENZ ABC CORES

**We Pay up to \$200 Each Plus Shipping \***

All ABC struts must be in rebuildable condition, no broken or bent struts. They must include intact hydraulic lines, ball joints and travel sensors where applicable.

## 03-06 SL-CLASS ABC

NON-AMG FRONT & REAR

**\$200 ea.**

AMG FRONT ONLY

R230

It can be hard to tell the 03-06 230's from the 07-12's, but you can use the pictures to assist. The top of the front struts for the 03-06 will have a hole in the middle as pictured. If it is solid with no hole it is an 07-12. For the rear you can tell by the travel sensor on top. If there is a solid metal plate instead of a sensor it is an 07-12. For the Front AMG it will be labeled on the ball joint as pictured.

## 07-12 SL-CLASS ABC

AMG FRONT ONLY **\$200 ea.**

NON-AMG REAR RIGHT ONLY **\$200 ea.**

R230 CHASSIS

For the 07-12's we are currently only buying the AMG Fronts and the non AMG rear right. The top of the fronts have a solid plate in the middle compared to the 03-06 models with the hole pictured above. They should also have the AMG logo on the label. The rears for the 07-12 will not have a travel sensor like the earlier models, they will have a solid plate with no holes. These will have "R" on the bottom mount label and will not have the AMG logo.
